

MEDICAL ALLEY INNOVATION SCHOLARSHIP

St. Thomas is pleased to announce the Medical Alley Innovation Scholarship to members of the Medical Alley Association. This new scholarship is in celebration of the University of St. Thomas new, one-year Master's of Science in Health Care Innovation and Medical Alley's 34 years of dedication to workforce development in the areas of health care and innovation.

Scholarship

10 Medical Alley Innovation Scholarship recipients will be selected, each receiving a \$5,000 scholarship towards the University of St. Thomas MS in Health Care Innovation program for Fall 2018. The scholarship is open to any employees of current membership companies of the Medical Alley Association.

Program

The MS in Health Care Innovation is a one-year program focused on educating professionals on how to transform the current health system by influencing the future direction of the industry. The program will focus on the following content areas:

Health Care Core

High Performance Health Care

Integrative Capstone & Mentoring

How to apply: Interested candidates will submit a one page essay answering this question - "How will innovation help the Minnesota Health Care system make the leap to digital health?"

Completed essays should be emailed to alley.benton@stthomas.edu. Applications before August 1st will be given priority.
