

MEDICAL ALLEY

ADVOCATING FOR A HEALTH SYSTEM THAT
WORKS FOR EVERYONE

AND THE

ECOSYSTEM THAT WILL DRIVE THE
TRANSFORMATION
OF **HEALTHCARE**

ADVANCING

MEDICAL ALLEY

AS THE GLOBAL EPICENTER OF HEALTH INNOVATION AND CARE

Minnesota must significantly increase its attraction of talented people and better prepare its existing workforce to impact the future of healthcare. Minnesota needs a vibrant supply of top and new talent to uphold its health-care leadership position. We support policies that support workforce attraction, retention, and preparedness.

EARLY-STAGE ECOSYSTEM

Minnesota's environment for funding and support for entrepreneurial ventures must improve to capture and sustain a leadership position. Startups are critical to sustaining leadership, but far too often Minnesota companies struggle to raise capital and find support. We back increased support services for entrepreneurs and existing incubators.

HEALTHCARE TRANSFORMATION

Solving healthcare's greatest challenges requires bringing every stakeholder to the table. With a diverse cross-sector membership, Medical Alley is uniquely positioned to facilitate conversations regarding healthcare solutions.
